Sprint 3 Plan Clothr, Clothr Team November 19, 2017 Revision 1 - November 6, 2017

Sprint 3 Goal: Connect the database to the app and touch up on the UI interface for a pleasant interface.

Task Listing/User Stories:

User Story 1: As a user, I want to be able to access clothing from the ShopStyle's clothing selection so that I can see a larger selection of clothing and be able to buy it. (8 points)

- Create filters for the clothing
- Figure out the API that shows specific clothing selections

User Story 2: As a user, I want to be able to see the details of the current piece of clothing in another page when I tap on it so that I could be sure of the clothing I want to save. (13 points)

- Create the UI for more detail on the clothing article

Team Roles:

Gilbert - Developer Kianna - Developer Andrew - Developer Sam - Product Owner/Developer Gabriel - Developer/Scrum Master

Initial Task Assignment:

Gilbert - connect the log in page to the database, so users can create a profile, fix any UI features

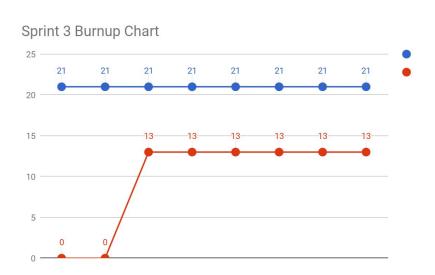

Kianna - connect the log in page to the database, so users can create a profile, fix any UI features
